GRADUATE PROGRAMS AT GW

THE GEORGE
 WASHINGTON
 UNIVERSITY
 WASHINGTON, DC

GW hosts multiple events and programs throughout the year, many for its graduate students.

Because of its long track record in conducting vaccine research and leading clinical vaccine trials, GW investigators have developed or tested potential vaccines for COVID-19, HIV and malaria, among other diseases.

Ph.D. fellows gaining firsthand, on-site knowledge about convergent problems in artificial intelligence and machine learning.

In the fall, GW hosts a graduate student welcome fair for students to get to know each other and learn about campus resources.

Graduate students discussing coursework on the outside terrace of Gelman Library.

GW GRADUATE STUDY

WHERE IDEAS TRULY CHANGE THE WORLD

From theory to practice, from humanities to public health, graduate study at GW means academic excellence, innovative research, and invaluable real-world experience.

Graduate students come to GW because the ideas explored here have extraordinary potential to change the world. Passionate about making a difference, GW students leverage a vast network of globally influential partnerships and research initiatives to hone their leadership skills and put their knowledge to work. We are a dedicated and engaged intellectual community, bound by our shared commitment to diversity, equity, and inclusion.

CAPITALIZE ON THE ENDLESS POSSIBILITIES

From our location in the heart of Washington, D.C., our nation's capital, our faculty and students have unparalleled access to experts, facilities and world-class resources, at GW and at some of the world's most influential media, cultural, political and research institutions, including the World Bank, National Institutes of Health, Folger Shakespeare Library, Smithsonian Institution, Library of Congress, NASA, and nearly every federal agency in America. GW's dynamic classroom experiences and unrivaled partnerships enable our students to infuse their studies with real-world relevance and get a head start on where their talents will make the greatest impact.

GW IS A RESEARCH HUB

As the #1 research-active academic institution in the nation's capital, GW faculty and graduate students carry out cutting-edge research and scholarship across a wide array of disciplines, and our more than 35 cross-disciplinary research institutes and dozens of school-based research centers foster a culture of collaboration. We investigate some of the world's most complex challenges, partnering with local, community-based organizations, city leaders, private industry, federal institutions and our academic peers in the U.S. and around the world. Our state-of-the-art facilities, instrumentation, collections and other resources ensure we meet the needs of our faculty and students as they carry out their investigations, develop new lines of inquiry, unearth unprecedented discoveries and ultimately change the world.

A new member of the prestigious Association of American Universities (AAU), which recognizes our status as a premier institution in research, education and innovation, GW is home to multiple National Institutes of Health-funded training grants in the biomedical and health sciences, as well as training programs funded by the National Science Foundation and the National Institute of Standards and Technology that support everything from graduate student research on artificial intelligence to translating technologies and ideas from the lab to the marketplace.

COSTS, FUNDING, AND RESOURCES

Graduate tuition and fees at GW are comparable to the national average for U.S. private universities. Information about tuition, fees, and estimated living expenses are provided at go.gwu.edu/gradcosts.

A wide range of graduate student support is available for qualified candidates, including assistantships, fellowships, scholarships, awards, loans, work-study, and cooperative education. Learn more at go.gwu.edu/gradsupport.

Graduate students usually live off campus. More information about housing is available at offcampus.students.gwu.edu.

GW provides resources to help our students succeed, including:

- Assistantships, Fellowships, and Financial Aid
- Career and Employment Services
- Disability Support Services
- International Services
- Health and Wellness
- Military and Veteran Student Services
- Multicultural Student Services
- Safety and Security

APPLYING FOR GRADUATE STUDY

To apply for graduate study at GW:

1. Select a program of interest
2. Review program-specific admission requirements
3. Assemble supporting documents
4. Submit your application

Please visit the general admission website at graduate.admissions.gwu.edu to get an overview of the admission process, as well as program-specific information (e.g., deadlines, required standardized tests, guidelines for statements of purpose, and other supporting documents).

To apply to programs in the following schools, please use our graduate online application system at go.gwu.edu/gradapply. The online system maintains your confidentiality through the assignment of a personal identification number and also allows you to complete the application at your convenience.

Columbian College of Arts and Sciences

Corcoran School of the Arts and Design

School of Media and Public Affairs

Trachtenberg School of Public Policy and Public Administration

College of Professional Studies

Graduate School of Political Management

Elliott School of International Affairs

Graduate School of Education and Human Development

School of Business

School of Engineering and Applied Science

School of Nursing

The following GW graduate programs have separate admission processes. For application information and materials, please visit their websites:
